

# THANK YOU

Thankyou so much for the donation of the London saddle. National coach, Mary Longden, said this in her rider report. *“Your new treeless saddle seems to be the answer for your riding. It allows you to be in a ‘functional riding position’ without your having to concentrate on keeping your balance. “*

Competing at the World Para Dressage Championships was a fantastic experience, and although I didn't manage to win a medal, I learned much about riding, competitions and life. My highest position was eighth in the Freestyle test on the final day. You were acknowledged for your donation of the saddle in my commentary at the World Championships and many riders and coaches from other countries were very interested in the saddle.

I have now returned home with renewed determination to compete successfully at the Paralympic Qualifier event in Victoria in October on my own horse and, hopefully, ultimately in Hong Kong next September.

Yours sincerely,

Mary Ipkendanz
